

Company profile:

Guidewire Software is a leading technology provider dedicated to serving the unique needs of the property and casualty (P&C) insurance industry. Since its inception in 2001, Guidewire has been a pioneer in insurance software, committed to developing innovative solutions that address the complexities of the P&C sector. By delivering a comprehensive suite of products, Guidewire supports insurers in transforming their operations, enhancing efficiency, and improving customer experience in an increasingly digital and competitive landscape.

Some of these core services include –

- **Underwriting and Policy Administration:** Guidewire's solutions empower insurers to efficiently underwrite risks, generate accurate policies, and manage the entire policy lifecycle.
- **Claims Management:** The company's claims management solutions enable insurers to handle claims efficiently, reduce cycle times, and improve customer satisfaction.
- **Billing and Policy Administration:** Guidewire's billing solutions provide insurers with the tools to accurately bill customers, manage premium payments, and streamline billing processes.

Guidewire's commitment to flexibility, scalability, and innovation has made it a trusted partner for insurers worldwide.

CPO Profile, Guidewire:

Diego Devalle, Chief Product Development Officer, Guidewire

Diego Devalle is a seasoned technology leader with over 20 years of experience in executive roles across different realms of Enterprise Software, Internet, and Mobile Payment.

In his current role, as a Chief Product Development Officer at Guidewire, Diego spearheads product strategy and design to meet the evolving needs of Property and Casualty (P&C) insurers. His work focuses on enabling insurers to swiftly introduce innovative and market-differentiating products, keeping pace with industry demands.

Prior to joining Guidewire, Diego held senior leadership positions in various companies including ICIX, Mindjet and Monitise. He made notable contributions during his time at SAP Labs as a Vice President of Software Development, Product and Engineering. His journey in enterprise software began at Baan in the Netherlands, setting the foundation for a career marked by technological vision and operational excellence.

Diego has held a series of influential leadership roles across global markets, including in the San Francisco Bay Area, India, and Europe.

Known for his ability to build and inspire high-performing global teams, Diego is skilled in driving critical strategic initiatives and seamlessly integrating acquisitions. He excels in defining and executing product strategies that align with business goals, fostering a culture of motivation and urgency.
